

NAVAL POSTGRADUATE SCHOOL

Commencement
Ceremony

SEPT 27, 2024

NAVAL POSTGRADUATE SCHOOL

"I will focus on the following areas: First, sharpen our warfighting edge. The threat is real, the pace is accelerating, and it is our duty to excel in all domain combat as part of the joint force and alongside our allies and partners. Second, strengthen our Navy team. Our sailors and civilians are our competitive advantage and we need to continue to provide them the tools, the training, the education, and the support they need to be the best team for our country."

Admiral Lisa Franchetti, USN
Chief of Naval Operations

"We are a learning organization that requires Marines at every rank to understand the strategic implications of their actions. We must increase our knowledge every day. Education makes us more adaptable; adaptation builds advantage; and advantage leads to victory on the battlefield."

General Eric Smith, USMC
Commandant of the Marine Corps

The Naval Postgraduate School provides an unparalleled learning and research environment. NPS is a place where operationally experienced officers from the joint services, civilians from various defense and homeland security organizations, and international students from nearly 60 countries come together to learn from, and work with, a world-class faculty focused on global security issues vital to our national security strategy.

The institution is responsive to rapidly emerging and ever-changing strategic and tactical requirements. Curricula are rigorously tailored to meet the nation's changing defense needs, while simultaneously maintaining the same high accreditation standards as civilian universities.

An NPS education extends far beyond the Monterey campus, reaching warfighters both at sea and in the field, engineers in defense laboratories, and international participants who are enrolled in distributed learning and professional education programs throughout the globe.

On any given day faculty and student research addresses critical real world requirements relevant to combatant commander and warfighter needs through a unique integration of government agencies, commercial enterprises, other notable research universities and our allies.

An NPS graduate has the intellectual know-how and the practical skills to make the most of today's resources. NPS graduates are the cornerstone for developing tomorrow's defense technologies, systems and programs.

The Naval Postgraduate School is accredited by the Western Association of Schools & Colleges, the Accreditation Board for Engineering & Technology, the Association to Advanced Collegiate Schools of Business and the National Association of Schools of Public Affairs & Administration. Additionally, The North Atlantic Treaty Organization has recognized NPS as an Alliance-wide Partnership for Peace Education and Training Center.

...Master your future.

Vice Admiral Ann Rondeau, USN (Ret.)

President
Naval Postgraduate School

Retired Vice Adm. Ann E. Rondeau was appointed as President, Naval Postgraduate School on January 29, 2019. She brings to the assignment an unparalleled record of leadership and achievement within the military and academia in the areas of education, training, research, executive development, change management, and strategic planning. Prior to her appointment, Adm. Rondeau served as the sixth president of the College of DuPage. Her most recent military position was as the President of the National Defense University, a consortium of five colleges and nine research centers in Washington, DC.

Rondeau has extensive leadership experience in significant military and educational roles. In 1985, she was selected and served as a White House Fellow in the Reagan Administration and went on to serve as the Deputy Commander of the U.S. Transportation Command in Illinois, Pentagon Director/Chief of Staff for the U.S. Navy Staff, Commander of the Navy Personnel Development Command in Virginia, Commander of the Naval Service Training Command at Great Lakes, Ill., Pacific Fleet Staff Chief of Staff in Hawaii, Commanding Officer of Naval Support Activity in Tennessee and other staff and commanding responsibilities with policy, support and student service. Rondeau retired from the U.S. Navy as a three-star admiral in 2012 and was the second woman to have achieved that rank in the Navy. She then served as a partner and later an independent consultant with the IBM Watson group.

Rondeau holds a B.A. from Eisenhower College (NY), an M.A. from Georgetown University (DC) and an Ed.D. from the College of Education at Northern Illinois University in DeKalb. She also holds an honorary Doctorate in Public Service from Carthage College (Kenosha, WI) and an honorary Doctorate in Humane Letters from Rosalind Franklin University of Medicine and Science (Chicago, IL).

She is a proud member of the Arizona State University Flag Officer Advisory Council, the National Museum of the American Sailor Foundation Board of Directors, the Military Advisory Board (under the aegis of Center for Naval Analysis), the Dwight D. Eisenhower Memorial Commission, the Chicago Regional Growth Corporation Board, Choose DuPage Board of Directors, and the Council for Higher Education Accreditation. Additionally, Dr. Rondeau serves on the Executive Board of the U.S. Navy “Education for Seapower Study” — a clean-sheet review of naval learning.

Dr. James Newman

Acting Provost and Chief Academic Officer
Naval Postgraduate School

Dr. James H. Newman is the Acting Provost, Vice President and Chief Academic Officer (Acting) of the U.S. Naval Postgraduate School (NPS), where he also serves as Professor, Space Systems. He previously held the position of Chair and Professor, Space Systems Academic Group (SSAG).

In 2006, Newman came to NPS after three years serving NASA in Moscow, Russia. He joined the SSAG as a NASA Visiting Professor and in 2008 he subsequently transferred from NASA to the Department of the Navy to accept a tenure-track professorship at NPS. His teaching has included orbital mechanics and launch systems, payload design, and introduction to programming for space applications. He has performed applied infrastructure research in the use of very small satellites for focused projects of national interest and for motivating hands-on, officer student educational opportunities. This applied research has included launching several very small satellites and satellite deployers and he is currently assisting with a payload on satellites developed by other faculty in the SSAG.

NASA selected Newman into its astronaut program in 1990. Newman's space flight experience included four missions aboard the Space Shuttles Discovery (STS-51), Endeavour (STS-69, STS-88), and Columbia (STS-109). Notably, he logged a bit more than forty-three days in space, including six spacewalks totaling a little longer than forty-three hours and assignment as the robotic arm operator. On the spacewalks he installed mission critical equipment on the International Space Station and worked on the Hubble Space Telescope. His office assignments included progressively more responsible positions in leadership and management, culminating in his assignment as the Director, NASA's Human Space Flight Program, Russia.

Newman received a Bachelor of Arts degree in Physics from Dartmouth College in 1978 and a Master of Arts degree and Doctorate in Physics from Rice University in 1982 and 1984, respectively. After graduating from Rice University in 1984, Newman performed post-doctoral research prior to starting at NASA in 1985 as an instructor in Control and Propulsion. He is a member of the Association of Space Explorers, the American Physical Society, Sigma Xi, and the American Institute of Aeronautics and Astronautics.

GRADUATION AWARDS

Monterey Peninsula Council of the Navy League LCDR Tom Winant Highest Academic Achievement Award – LT Juan Pablo L. Garcia Castro, USN

This award is presented to a graduating United States Navy, United States Marine Corps, United States Coast Guard, or National Oceanographic and Atmospheric Administration student who has maintained an outstanding academic record as exhibited by academic achievement, thesis research, motivation, and community involvement.

Marine Corps Association Superior Service Award for Outstanding U.S. Marine Student – Capt Nicole Turdo, USMC

This award is presented to an outstanding student based on quality point rating, thesis, curricular, and extracurricular activities.

Naval Postgraduate School Superior Service Award – Maj Jonathan Mikkelson, USMC This award is based on superior contributions to the student body, professional community, and local Monterey area.

Rear Admiral Grace Murray Hopper Information Technology Management Award – Maj Jonathan A. Mikkelson, USMC

This award is presented to a graduate who has demonstrated outstanding academic performance, thesis quality, and leadership ability.

Air Force Association Award for Outstanding U.S. Air Force Student – Maj Daniel Bazemore, USAF

This award is based on outstanding service and is sponsored by the Monterey Chapter of the California Air Force Association.

Naval Postgraduate School Outstanding Academic Achievement Award for International Students – Major Hatem Alasmari, Royal Saudi Arabian Armed Forces

This award is presented to a student who has exhibited outstanding academic achievement, conducted notable thesis research, maintained motivation and a serious interest in the community, and who has interacted well with other students in the interest of international alliance.

Monterey Kiwanis Club Outstanding International Student Award – Major Hatem Alasmari, Royal Saudi Arabian Armed Forces and Mr. Yong Jin Jaryl Low, Singapore Ministry of Defense

This award is presented to two outstanding international students based on academic standing and achievement, and involvement in community affairs.

The Tyler National Security Research Award – LT Vince Vanterpool, USN

This award is presented to acknowledge outstanding academic excellence in the areas of innovation and collaboration at the Naval Postgraduate School. This recognition is intended to support the school's mission of promoting educational excellence.

Surface Navy Association's Award for Excellence in Surface Warfare Research – LT Vince Vanterpool, USN

This award is presented to a graduating student whose thesis topic and quality of supporting research demonstrate the greatest potential for contribution to the Surface Navy.

Military Operations Research Society Stephen A. Tisdale Graduate Research Award – LT Vince Vanterpool, USN

This award is presented in recognition of outstanding achievement in graduate research directed toward improving military force utilization. The primary award criterion is research which leads to the demonstration of or potential for increased operating effectiveness of currently available or near-term assets

Gary Kildall Award for Computing Innovation – Maj Erick S. Capulong, USMC

The Gary Kildall Awards will be presented to acknowledge outstanding student academic excellence or distinguished research in computer science. This recognition is intended to support the school's mission of promoting educational excellence.

AFCEA John McReynolds Wozencraft Award for Academic Excellence in Joint C4I – Capt Colin Ball, USMC

This award is presented quarterly to an outstanding student in the Electrical and Computer Engineering and Electronic Systems Engineering curricula. All students graduating during the previous 12-month period are eligible for consideration.

Chief of Naval Operations Award for Excellence in Operations Research – LT Nicholas Reel, USN

This award is presented to a Navy or Marine Corps graduate based on academic achievement, excellence tour performance, thesis work, and demonstration of those qualities indicative of an outstanding military officer.

Naval Sea Systems Command Award for Excellence in Systems Engineering – LT Jarrod Kujawski USN

This award is presented in recognition of distinguished scholastic achievement in Systems Engineering.

Rear Admiral Grace Murray Hopper Computer Science Award – Capt Alexander J. Beal, USMC

This award is presented in recognition of excellence in Computer Science to the graduate who has demonstrated outstanding academic performance, thesis quality, and leadership ability.

Meyer Award for Outstanding Student in Systems Engineering (Distance Learning) – Allison Anne Gregory, Army Contracting Command; Capt David M. Walsh, USMC (Ret.); and Joshua A. Hersh, Army Futures Command

This award is presented to an outstanding Department of Defense graduate of each Distance Learning Systems Engineering degree program who has demonstrated superior academic performance.

Curtis H. "Butch" Straub Achievement Award – Mr. Jose Marchand, Federal Emergency Management Agency; Puerto Rico

Presented to a graduating Center for Homeland Defense and Security (CHDS) student with an exemplary academic and citizenship record while in the CHDS Master's Degree program. The award winner will be a student who has excellent grades, who has written an outstanding thesis, and who has helped the most in providing leadership and energy for the CHDS MA program.

Outstanding United States Air Force Graduate Award, Department of National Security Affairs – Maj Kathryn Rew-Banning, USAF

This award is presented to an officer for overall scholarly achievement.

Johns Hopkins University Applied Physics Laboratory Award for Excellence in Systems Analysis – LT Christopher N. Chiles, USN; LCDR James D. Doh, USNR; and LCDR Eleanor I. Homire, USNR

This award is presented to a Master of Systems Analysis capstone project team to recognize relevant, high-quality systems analysis with high potential for immediate impact.

FACULTY/STAFF AWARDS

Rear Admiral John Jay Schieffelin Award for Excellence in Teaching – Dr. Ralucca Gera, Department of Mathematics

This award recognizes faculty members, who, through wide consensus, excel as teachers. This consensus is ascertained through a ballot polling of students and graduates.

Meyer Award for Teaching Excellence in Systems Engineering (Distance Learning) – Assistant Professor Daniel A. Eisenberg, Department of Operations Research; CAPT Don Muehlbach (ret), USN, PhD, Department of Systems Engineering; and Dr. Rama D. Gehris, Department of Systems Engineering

This award is presented to an outstanding faculty member of each Distance Learning Systems Engineering degree program who is recognized by the students for teaching excellence and/or exceptional contributions to the students' overall learning experience.

(D) – Students recognized for “Graduating With Distinction”
(T) – Students recognized for an “Outstanding Thesis”
(J) – Students receiving their Joint Professional Military Education
